

MEET KIM

“THE HAPPY MEDIUM”

Kim Russo has been a practicing psychic medium for thirteen years. As a ***Forever Family Foundation*** certified medium, she has graciously donated her time demonstrating her gift of spirit communication at several foundation events.

As is the case for many gifted mediums, her spiritual journey started at a very early age. She remembers closing her eyes before going to bed and having visions of people she did not recognize. This presented an obvious problem. Although she was brought up in a home that believed in a world that we cannot see, she was also taught that we should not “disturb the dead.” After growing up, pursuing a career in real estate, marrying and giving birth to three children, those same beings that she was taught not to “disturb” began to show themselves to her once again. She soon realized that communicating with these entities would become her new “job.”

Kim believes that she has been given this gift and feels that it is her mission to share it with the world. The detailed messages that she receives from the “other side” provide proof that the spirit continues beyond the physical death of the body. Her readings have offered much comfort and hope to those who seek her services, and she has developed quite an extensive following in the metropolitan New York area. Besides donating her time to ***Forever Family Foundation***, Kim also offers her services to many other charitable organizations and can be reached via her website www.kimthehappymedium.com.
