

MEET

STEPHANIE ANN STEVENS

Stephanie Ann Stevens, a Forever Family Foundation Certified Medium, has been aware of other dimensions since the age of three, having been taught Yogic meditation as a child by her parents. She became a professional clairvoyant at age twenty-one and began practicing mediumship in 1997. She later became an Integrative Research Medium with the Veritas Research Program at the University of Arizona, followed by becoming a Certified Research Medium at The Windbridge Institute for Applied Research in Human Potential under the direction of Dr. Julie Beischel. Stephanie also participates in The Sophia Project under the direction of Dr. Gary Schwartz at the University of Arizona.

Her abilities as a medical intuitive are enhanced by her training in the Divine Healing OM, one of the Yogic powers. According to Stephanie, she activates the OM while hearing it at the same time. She can then project it, at will, to those in need of physical, mental or spiritual healing. Other Yogic gifts include continuous sight of her spiritual eye and olfactory senses that enable her to detect everything from pregnancy to cancer, even at a physical distance through email, telephone or radio.

Stephanie can be reached via her website www.ommaster.com or email steph7@wildblue.net.
